

Rumpke Recycling FAQs

PREPARATION

How clean should the material be? Rinse out all recyclables.

If the material is wet, is it still acceptable? Dry material is always preferred because Rumpke is able to process and market the material better. Please try to keep all materials inside your recycling container. If the materials get wet, Rumpke can still process them.

Which containers should be flattened/crushed? We recommend crushing cans to make space in your bin. It's also best to release the air out of plastic number one bottles and then reattach the lid. This helps with the sorting process.

Containers lids – Can they be recycled? On or off? Both metal and plastic lids can be recycled. Please leave them on all bottles and jars.

PAPER PRODUCTS

Can shredded paper be recycled? Yes, if it is placed in a clear plastic bag. This is the only exception to the "no plastic bag" rule.

Are brown paper towels acceptable? No

Spiral notebooks or spiral tablets? No, only if the spiral binding is removed.

Thermal bonded paper? No

Paperback books and hardback books? Paperback books are recyclable. Hardcover books are not acceptable, but the interior pages can be removed and recycled.

Paper cups, paper plates, paper towels & napkins? No, these materials are contaminated with food.

Post-it notes? Yes

Magazines? Yes

Photographs and "sticker paper?" No, this type of paper and adhesive used contaminates the recycling process.

Laminated paper? No

PRODUCT PACKAGING

Pizza boxes? Pizza boxes should be completely empty with the liner and plastic "table" removed. If it is very greasy and/or covered with sauce and cheese, it should be thrown away. If the lid is fairly clean, tear it off and recycle what you can.

Pet food bags? No

Paperboard dishwasher detergent boxes with metal spouts? The cardboard is recyclable, please remove the metal spout.

Frozen concentrated juice containers? No

Wine boxes? Yes, but the interior plastic bag should be thrown away before recycling.

Paper egg cartons? Paper egg cartons are acceptable, but Styrofoam egg cartons are not.

Keurig cups? No

Plastic coffee cans? Yes

Are the large plastic containers of salad dressing, mayo, mustard, ketchup, etc. used commercially acceptable? Yes

Vegetable oil bottles? Yes, if rinsed well.

Clamsheils? No

Plastic containers of infant formula? Yes

Protein powder containers? Yes

Take-out containers? No

Toothpaste tubes? No

SHIPPING MATERIALS

Shrink wrap? Not in Rumpke's residential program.

Is Styrofoam acceptable in Rumpke's program? If not, are there places to take it where it will be recycled? No, it is not acceptable in Rumpke's program. We recommend that you take Styrofoam peanuts back to UPS or FedEx Stores.

Amazon mailers? The plastic liner cannot be included.

Envelopes with windows? Yes

Amazon "pellets" used for padding? No, they are Styrofoam and cannot be processed.

Plastic "pillows" used to secure items being shipped? No, they are not a plastic container.

Molded fiber used in packaging? Molded Fiber is fine. Tyvek is not accepted.

Climacell boxes? All Styrofoam and cooling components need to be removed, leaving the Corrugated box only.

Are corrugated pallets acceptable? Yes, please break them down into 6ft by 6ft pieces.

Is cardboard that has been painted acceptable? Yes, if the paint is minimal.

Recognizing private company success

SHIPPING MATERIALS (CONTINUED)

Should tape be removed from corrugated boxes? If possible, but it is not necessary.

Will corrugated boxes be picked up if they are outside of the recycling container? Yes, please break them down into 6ft by 6ft pieces. Place the loose boxes near your recycling bin for pick up.

Should corrugated boxes be “bundled” for curbside recycling and if so with what? Simply break down your boxes into 6ft by 6ft pieces and pile them next to your recycling container. Do not bundle the boxes together.

GLASS

Can broken glass be placed in a recycling container? No

Glass bottles that contained essential oils? No

Olive oil bottles? Yes

Peanut butter jars (glass)? Yes, if rinsed well.

Makeup bottles? Yes, if rinsed well.

Perfume bottles? No

Window glass, mirrors or drinking glasses? No

CANS & PANS

Are disposable aluminum pans and aluminum foil acceptable? No

Pet food cans? Yes, but please make sure they are rinsed out.

Aerosol cans? Yes, as long as the can did not contain household hazardous waste. The can should be empty. Please remove the spray nozzle and lid. Spray paint cans are not accepted.

Shaving cream in aerosol cans? Yes

Large metal cans such as popcorn cans? Yes

Metal whipped cream chargers? No

BOTTLES & JARS

Plastic bottles with labels that are “shrunk” on the container? Yes

Plastic bleach bottles and other bottles of household cleaning products? If the product’s label identifies it as household hazardous waste, it is not acceptable.

Plastic containers of disinfecting wipes? Yes

Plastic bottles of hand sanitizer? Yes

Over the counter medicine bottles? Yes, but if the bottle is small it may not be recovered.

Reusable plastic water bottles? No

Peanut butter jars? Yes, if well rinsed.

Body lotion? Yes

OTHER MATERIALS

PVC pipe? Not in Rumpke’s residential program.

How can I properly dispose of a smoke alarm?

Check with your local fire department or solid waste management district for suggestions.

RUMPKE PROCESSES

Is recyclable material retrieved at landfills? No

What are end products? Processed recyclables used to make new products.

Are Rumpke drivers empowered to refuse to pick up unacceptable items? Yes

Do recycling guidelines differ if the business or municipality has a compactor? The guidelines do not differ. In most service areas, recyclers have collaborated to create a consistent list of acceptable items.

Does Rumpke incinerate material? No

Does Rumpke make money on recycling? Recycling markets go up and down every month. Rumpke is dedicated to recycling in good markets and bad.

Recycle These

PAPER

Cardboard should fit inside cart.

GLASS BOTTLES & JARS

Any color. Reattach lid.

PLASTIC BOTTLES, JUGS & TUBS

Reattach lid.
Yogurt and fruit cups OK.

RUMPKÉ

Rumpke is Expanding the Acceptable Recycling Items List!

Rumpke Waste & Recycling customers can fill their recycling carts with even more material. Effective immediately, Rumpke is adding tubs to the acceptable items list!

WHY NOW?

As a Recycling Leader, Rumpke is constantly working with partners to develop solutions for expanded recycling opportunities. Recently, there have been innovations in plastic recycling that have allowed Rumpke to secure long-term partners for the specific plastic that makes up tubs and yogurt containers. Securing long-term partners, or end users, is a vital part of Rumpke's operation.

WHAT ARE END USERS?

It's important to note that Rumpke is a recycling processor, not an end user. This means Rumpke collects and sorts recyclable material, but the material is ultimately shipped to an end user. End users are companies that take the sorted materials and turn them into products. Companies such as Envision, Pure Cycle and St. Joseph Plastics are just some of Rumpke's partners that accept tubs and yogurt containers collected in Rumpke's recycling plants.

WHAT CAN I RECYCLE?

Rumpke's recycling program includes glass bottles and jars, metal cans, cartons, cardboard, paper, plastic bottles, jugs and now...TUBS! What kind of tubs can you recycle? Here are examples of acceptable tubs:

Tubs:

- Whipped topping
- Butter
- Cottage cheese
- Specialty dips
- Sour cream
- Yogurt containers of any kind
- Jelly and pudding snacks
- Fruit cups (think apple sauce or diced peaches)

FREQUENTLY ASKED QUESTIONS:

Are all #5 polypropylene plastics accepted?

No. At this time, Rumpke is only adding polypropylene tubs to its acceptable items list.

What do we do with the lids to these containers?

Like with bottles and jugs, Rumpke will accept the lids to tubs. Please place lid on empty container.

Do these containers need to be prepared a certain way?

Like with other items accepted in Rumpke's recycling program, tubs should be empty, clean and dry. These items should be placed in recycling containers loose.

How clean do tubs need to be?

Items don't need to be washed, but please rinse.

Can I nestle the tubs together?

To ensure the tubs are recovered in the recycling process, they need to be loose. Please don't place containers inside of other containers.

What do the tubs become when recycled?

Rumpke has established several long-term end markets for the plastic tubs. The vast majority are located in the Midwest. Tub will be recycled into new containers.

DID YOU KNOW?

The recycling symbol on the bottom of a plastic product does not necessarily indicate that the item can be recycled. That number surrounded by chasing arrows is a resin identification code and tells users what kind of plastic they're holding. Plastic items such as clam shells, to-go containers and coffee pods are not accepted in Rumpke's program.
